Less is definitely more.

With unrivalled looks and thermal performance, the [Atlas Flat Rooflight](#) is the ultimate glazed flat rooflight designed to throw maximum light into any home.

The Atlas Flat Rooflight brings stylish ambience to a home and its minimalistic roof frame ensures that it suits any style property.

Thanks to the Atlas Flat Rooflight's new unique structural aluminium slim design, it's not only one of the best looking flat rooflights available, it also has been redesigned with a polyamide thermal break to keep the heat inside, helping to reduce energy bills

Flat rooflights can add a stylish touch to any room, whether it is a modern bedroom or a contemporary kitchen extension.

“

The Atlas Flat Rooflight is perfect for any home – it has a modern design without looking heavy! It’s a fantastic alternative for those who don’t want a lantern for their home.

”

Maximum Light

The unique all aluminium system with thermal breaks make the Atlas flat rooflight the ultimate glazed flat rooflight

Sitting flush with the internal plaster line, the fixed flat rooflight appears frameless from the interior of the home, creating the illusion of an open roof space.

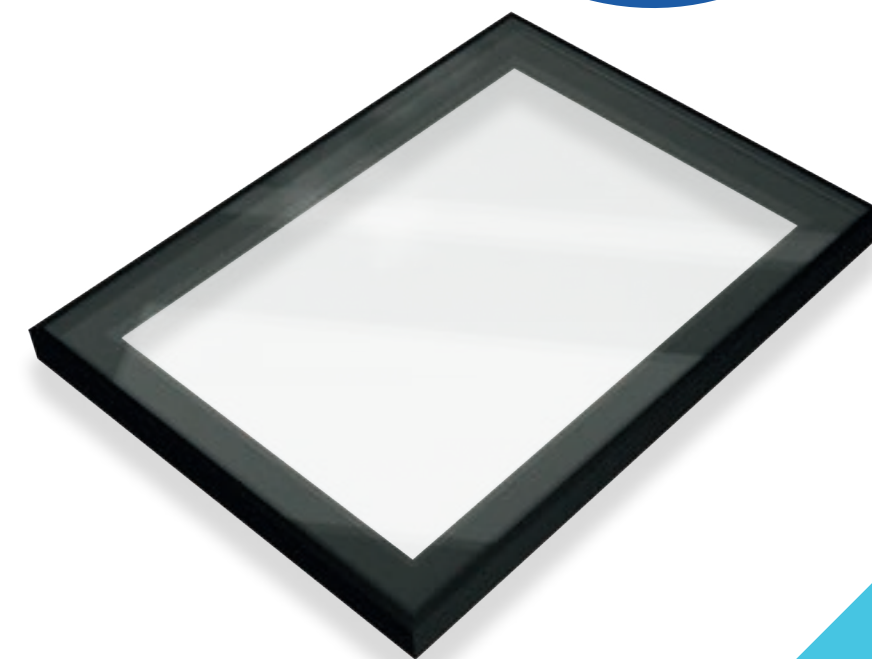

Ultimate Performance

Thermal performance is at the forefront of homeowners minds. Using only 1.0 W/m²k U value double glazing the rooflight can achieve overall U values of 1.4 W/m²k outperforming many of its rivals.

Minimal Sightlines

The minimalistic contemporary external design with flush glazing gives a sleek, modern appearance and is a stunning addition to any home extension.

TECHNICAL SPECIFICATION

Colour Options

The flat roof is available in white, grey Ral 7016m, black Ral 9005m, grey on white and black on white. The colour finish on the aluminium rooflight is powder coated to a marine grade standard using up to date processes, this ensures a much tougher finish than conventional spray painting used on timber and PVCu, whilst all powder coated components are colour guaranteed for 25 years.

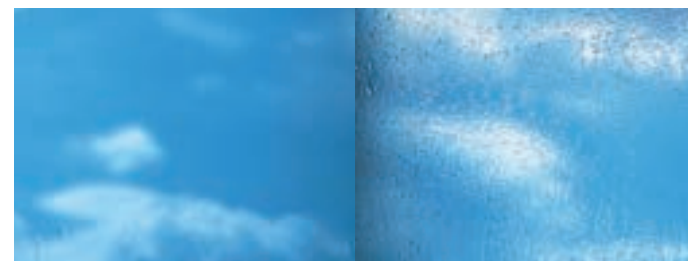

Available in white, grey, black, grey on white and black on white.

Available colours:

Low Maintenance

All Atlas rooflights come with a choice of blue or neutral solar controlled self cleaning glass, helping you to keep your flat rooflight looking cleaner for longer. Solar control and low e coatings with an argon filled cavity controls the amount of visible light, UV and heat that passes through the glass.

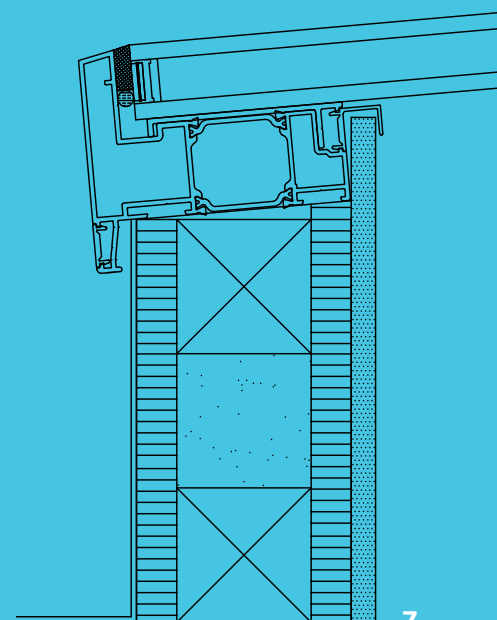

Self-cleaning glass

Standard glass
